28INT. I'd like to read you a list of priorities a District Attorney might have. Please rate each one using a scale of 1 to 7, where 1 means you feel that item should be a very low priority for your District Attorney and 7 means that you feel that item should be a very high priority for your District Attorney.
(REPEAT AFTER EACH UNTIL UNDERSTOOD: How would you rate that item on a scale of 1 to 7, where 1 is a very low priority and 7 is a very high priority?**)**

31.   As you may know, you will have the opportunity to vote on several State Questions in 2018. I am going to read you the ballot language for one of these, State Question 788:

This measure amends the Oklahoma State Statutes. A yes vote legalizes the licensed use, sale, and growth of marijuana in Oklahoma for medicinal purposes. A license is required for use, the possession of marijuana for medicinal purposes and must be approved by a physician, and users must be 18 years or older and an Oklahoma resident. The punishment for unlicensed possession of permitted amounts of marijuana, for individuals who can state a medical condition, is a fine not exceeding $400. A 7% state tax is imposed on medical marijuana sales.

If the election were held today, would you vote yes to approve or no to reject this state question?

Yes	60	→61

No	37	→37

35.   As you may know, Measure 780 was on the ballot in 2016. It changed the classification of certain drug possession and property crimes from a felony to a misdemeanor, made possession of a limited quantity of drugs a misdemeanor, and changed the classification of certain drug possession crimes to misdemeanors. The measure increased the threshold dollar amount used for determining whether certain property crimes are considered a felony or misdemeanor from $500 to $1000. This measure passed and became effective July 1, 2017.

Regardless of how you voted in 2016, do you **currently** support or oppose this measure? **(IF SUPPORT/OPPOSE)** Is that Strongly or Somewhat Support/Oppose?

Strongly Support	31	→63
Somewhat Support	32	
Somewhat Oppose	11	→33
Strongly Oppose	22	
(Undecided/Don't Know/Not Sure)	4	

36.   And as you may have heard, there is a proposal to create a process that will retroactively apply the terms of Measure 780 – that is, allow anyone who was previously convicted of a crime that was categorized as a felony under the old laws to go through an application process to have that felony modified into a misdemeanor under the new laws created by the passage of Measure 780.

Would you support or oppose retroactively applying the terms of this measure? **(IF SUPPORT/OPPOSE)** Is that Strongly or Somewhat Support/Oppose?

Strongly Support	37	→59
Somewhat Support	22	
Somewhat Oppose	14	→38
Strongly Oppose	24

37INT. Next I'd like to read you statements from people who **support** the proposal for retroactive reclassification of certain offenses, as outlined in Measure 780. BEFORE EACH: The (first/next) one is…
PROMPT IF NECESSARY: Is that a very convincing, somewhat convincing, not too convincing or not at all convincing reason to **support** the proposal for retroactive reclassification?**)**

SCALE:	Very Convincing	Somewhat Convincing	Not Too Convincing	Not At All Convincing	(Don't know)

(RANDOMIZE)

37. Retroactive reclassification is the right thing to do. Our justice system isn't fair to everyone if people who commit the exact same crime are treated differently based only on whether they committed that crime before Measure 780 was passed.

	26	35	16	19	4

38. Offenders who are behind bars have served enough time if we're no longer putting others in prison for the same offenses. These people have paid their dues and deserve a second chance to turn their lives around.

	36	37	13	13	2

39. If the law is applied retroactively, we won't have to spend money keeping people who commit low-level drug and property offenses locked up. Instead we can invest this money into programs that prevent crime and provide rehabilitation.

	42	32	11	14	2

40. The retroactive reclassification of crimes committed by people who are still in prison does not mean they will automatically be released. The proposal establishes an orderly application process so people can present their case to a judge, who will decide if their case meets the conditions for reclassifying their sentence.

	26	48	10	13	3

41. By passing retroactive reclassification we can take politics and prejudice out of the decision to reclassify a convicted prisoner's sentence. This puts the decision in front of an Oklahoma judge, instead of putting offenders at the mercy of the local District Attorney who can pick-and-choose the cases they reconsider.

	25	38	16	17	3

(END RANDOMIZE)

42. Now that you've heard more information about the proposal to retroactively apply Measure 780, do you support or oppose retroactively applying the terms of that measure? **(IF SUPPORT/OPPOSE)** Is that Strongly or Somewhat Support/Oppose?

Strongly Support	35	→**66**
Somewhat Support	31	
Somewhat Oppose	11	→**28**
Strongly Oppose	16	
(Undecided/Don't Know/Not Sure)	6	

43INT. Next I'd like to read you statements from people who **oppose** the proposal for retroactive reclassification of certain offenses as outlined in Measure 780. After each one, please tell me how convincing that statement is as a reason to **oppose** the proposal for retroactive reclassification – very convincing, somewhat convincing, not too convincing, or not at all convincing.
BEFORE EACH: The (first/next) one is…
PROMPT IF NECESSARY: Is that a very convincing, somewhat convincing, not too convincing or not at all convincing reason to **oppose** the proposal for retroactive reclassification?**)**

SCALE:	Very Convincing	Somewhat Convincing	Not Too Convincing	Not At All Convincing	(Don't know)

(RANDOMIZE)

43. Supporters of the original Measure 780 argued that sending non-violent people to prison with hardened criminals made them more likely to commit crime in the future. Based on their own logic, we shouldn't let these offenders out now, since they've already been in jail and are more likely to commit crimes if released through retroactive reclassification.

	11	25	25	36	3

44. We shouldn't retroactively apply Measure 780 because then these offenders will have faced no consequences. These are still criminals who broke the law, and they should serve the terms of the sentences that they were given to pay for their crimes.

	23	31	19	24	2

45. Drug and property crimes aren't victimless. Letting criminals off the hook with a shorter sentence is disrespectful, and can cause unnecessary fear for victims and their families who thought justice had been served.

	26	29	22	20	4

46. Retroactive reclassification is being pushed by extreme left-wing organizations and Democrats who are anti-police and pro-Black Lives Matter. They're only interested in serving the liberal agenda, not in doing what's really best for Oklahoma.

	18	16	21	41	5

47. We already have a method for reducing the sentences of incarcerated people, at the discretion of the local District Attorney's office in each Oklahoma county. We don't need a wide-sweeping law to force the review of every offender.

	16	31	22	27	3

(END RANDOMIZE)

48. I'd like to ask you one more time – now, that you've heard more information about the proposal to retroactively apply Measure 780, do you support or oppose the proposal for retroactive reclassification? **(IF SUPPORT/OPPOSE)** Is that Strongly or Somewhat Support/Oppose?
